

MISSISSIPPI STATE DEPARTMENT OF HEALTH

The Mississippi State Department of Health, Mississippi Public Health Laboratory, is seeking to fill a Public Health Laboratory Scientist I vacancy. Under supervision of a Team Lead, this position will perform tests, interpret data and report results on clinical or environmental specimens submitted to the Mississippi Public Health Laboratory in accordance with established policies and procedures and under the supervision of a team lead. This position will serve as a subject matter expert and answer questions from the MSDH Programs regarding the interpretation of analytical results. This position will also maintain, troubleshoot and repair the instruments used to test samples, participate in the daily operations of the testing section of the laboratory, follow approved quality system measures, review and approve analytical data, enter or transfer analytical data into the laboratory information system, and perform work as trained and in compliance with all laboratory policies and procedures. This position will also participate in product evaluations, method development and maintain competency as required by laboratory accreditation.

Salary Range: \$36,624.00 - \$49,991.76 Based on education and experience

Location(s): Hinds County, Central Office

Qualifications: Bachelor's Degree in a science-field and 0-2 years of laboratory experience
